

Graduate Math and Physics Seminar

Algorithms: A selection of Problems for Graduate Research

Dr. Michael Soltys

California State University, Channel Islands

Abstract: In this talk we are going to present a variety of problems in algorithms, including a recent result with Ryan McIntyre (a graduate student in Computer Science at CI), which extends some classical results to Erdos and of interest in bio-informatics. We will also present some other algorithms in ranking and scheduling. The goal of this talk is to present potential graduate research problems to Math and Computer Science students.

When: Monday, April 9, 2018, 6:00 – 6:50 pm

Where: CSUCI, Del Norte 1550

One University Drive, Camarillo, California 93012-8599 Tel: (805) 437-8967 Fax: (805) 437-8864 www.csuci.edu
