

Winter Classic Invitational Student Cluster Competition 2023

**Hewlett Packard
Enterprise**

High Performance Computing (HPC) Winter Classic

National competition, exclusively for Historically Black Colleges and Universities (HBCUs) and Hispanic Serving Institutions (HSIs). Twelve teams this year.

The **third HPC competition** we have competed in over the past 1.5 years. **Substantial professional development and career networking** opportunities

Competition scoring is based on:

- Optimization of benchmarks and HPC applications (e.g. computational fluid dynamics) **remotely** on systems located in **national laboratories** and other **large-scale computing centers**
- **Presentation of their technical results** and methodology

Two Teams from CSUCI (Nine Students)

CSUCI Team Won the Entire Competition!
